

Dr. David Feinerman

Oral Surgeon - Boynton Beach, Fla.

"I'm in my second year now with the club, and I can say that the quality of the material just keeps getting better. Not only that, but the support and the ease of implementation is getting better too. It has gone from being really easy to being practically seamless.

We have been seeing a significant difference in the quality as well as the quantity of referrals. We have been tracking it, and we have found that the practitioners in our study club are up about 30% year over year in the number of implant cases they are sending to our practice.

*I admit I was skeptical at first—I thought I'd give it a year and see what happened. Well, after a year we had 22 out of 23 members sign up again—and we are adding 10 more. And **it's not just about the return on investment from a business aspect; we are developing better relationships within this club—really getting to know each other and working more closely together—and that has been a wonderful experience.**"*

"We have been seeing a significant difference in the quality as well as the quantity of referrals....the practitioners in our study club are up about 30% year over year in the number of implant cases..."
